***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 4 is rejected under 35 U.S.C. 102(b ) as being anticipated by Japanese document 2001-348270 (2002/0183190 is used as a translation, the Tables from the Japanese document were not printed).

See Table 1 on page 3, compositions D1-D12 for flux compositions within the instant claim.

***Allowable Subject Matter***

3. Claims 1-3,5-8 are allowed. The prior art of record fails to teach or fairly suggest the claimed ceramic composition including the main ceramic of formula (I) in combination with the claimed flux. It is noted that the Japanese document teaches  $(\text{BaNdSm})\text{TiO}_3$  which is outside the claimed formula.

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Karl E. Group whose telephone number is 571-272-1368. The examiner can normally be reached on M-F (6:30-4:00) First Friday Off.
